

# **COMBUSTION AND FLAME**

## **THE JOURNAL OF THE COMBUSTION INSTITUTE**

**VOLUME 78 1989**

## **Contents**

### **Special Issue on the Ein Gedi Workshop on Combustion**

<b>EZRA BAR-ZIV (Beer-Sheva, Israel), DAVID GOLDEN (Menlo Park, CA) and THOMAS JUST (Stuttgart, West Germany)</b>	
Preface: Prepared by the organizers of the Ein Gedi Workshop on Combustion .....	1
<b>R. A. STREHLOW (Urbana, Illinois)</b>	
Preface .....	3
<b>R. D. LEVINE (Jerusalem, Israel)</b>	
The Dynamics of Elementary Processes and Combustion Kinetics .....	5
<b>JÜRGEN WOLFRUM (Heidelberg, West Germany)</b>	
How to Attack Complex Gas Phase Combustion Systems .....	13
<b>ASSA LIFSHITZ (Jerusalem, Israel)</b>	
Gas Pyrolysis in Combustion Single-Pulse Shock Tube Studies of N- and O-Atom-Containing Heterocyclics .....	43
<b>J. TROE (Göttingen, West Germany)</b>	
Present State of Predicting Limiting High-Pressure Rate Coefficients for Pyrolysis Reactions .....	59
<b>WING TSANG (Gaithersburg, MD)</b>	
Rate Constants for the Decomposition and Formation of Simple Alkanes Over Extended Temperature and Pressure Ranges .....	71
<b>PETER GRAY and JOHN GRIFFITHS (Leeds, England)</b>	
Thermokinetic Combustion Oscillations as an Alternative to Thermal Explosion .....	87
<b>JOHN P. LONGWELL (Cambridge, MA) and EZRA BAR-ZIV (Beer-Sheva, Israel)</b>	
Modeling of Inhomogeneities in the Toroidal Jet-Stirred Reactor .....	99
<b>FELIX WEINBERG (London, England)</b>	
Rotational Effects in Density—Stratified Reacting Gases .....	121
<b>NORMAN CHIGIER (Pittsburgh, PA)</b>	
Velocity Measurements in Inhomogeneous Combustion Systems .....	129
<b>DAVID R. CROSLEY (Menlo Park, CA)</b>	
Semiquantitative Laser-Induced Fluorescence in Flames .....	153
<b>D. J. SEERY and M. F. ZABIELSKI (East Hartford, CT)</b>	
Comparisons Between Flame Species Measured by Probe Sampling and Optical Spectrometry Techniques .....	169

ÖMER L. GÜLDER (Ontario, Canada)	
Influence of Hydrocarbon Fuel Structural Constitution and Flame Temperature on Soot Formation in Laminar Diffusion Flames .....	179
IAN H. LESLIE (Las Cruces, NM), MARK JOST (Yorktown, NY) and CHARLES H. KRUGER (Stanford, CA)	
Measured and Predicted Char Reactivity of Three U.S. Coals .....	195
R. K. CHENG and I. G. SHEPHERD (Berkeley, CA) and I. GÖKALP (Cedex, France)	
A Comparison of the Velocity and Scalar Spectra in Premixed Turbulent Flames .....	205
THOMAS H. FLETCHER (Livermore, CA)	
Time-Resolved Particle Temperature and Mass Loss Measurements of a Bituminous Coal During Devolatilization .....	223
P. G. HILL and A. KAPIL (Vancouver, Canada)	
The Relationship Between Cyclic Variations in Spark Ignition Engines and the Small Structure of Turbulence .....	237
BRIAN G. WICKE, KAREN A. GRADY and JOHN W. RATCLIFFE (Warren, MI)	
Cyanuric Acid + Nitric Oxide Reaction at 700°C and the Effects of Oxygen .....	249
WILLIAM L. GROSSHANDLER (Pullman, WA)	
Brief Communication: Interpretation of Laser Attenuation Measurements in Sooty Fires .....	257
A. LEE, C. K. LAW, and A. MAKINO (Davis, CA)	
Aerothermochemical Studies of Energetic Liquid Materials: 3. Approximate Determination of Some Thermophysical and Thermochemical Properties of Organic Azides .....	263
J. BUCKMASTER (Urbana, IL) and G. JOULIN (Poitiers, France)	
Radial Propagation of Premixed Flames and $\sqrt{t}$ Behavior .....	275
M. R. ZACHARIAH, D. CHIN, and H. G. SEMIRJIAN (Gaithersburg, MD) and J. L. KATZ (Baltimore, MD)	
Silica Particle Synthesis in a Counterflow Diffusion Flame Reactor .....	287
G. A. RICHARDS and A. H. LEFEBVRE (West Lafayette, IN)	
Turbulent Flame Speeds of Hydrocarbon Fuel Droplets in Air .....	299
LUIGI PETARCA and FRANCESCO MARCONI (Pisa, Italy)	
Fluorescence Spectra and Polycyclic Aromatic Species in a <i>N</i> -Heptane Diffusion Flame .....	308
S. REFAEL and E. SHER (Beer Sheva, Israel)	
Reaction Kinetics of Hydrogen-Enriched Methane-Air and Propane-Air Flames .....	326
A. N. HAYHURST and H. R. N. JONES (Cambridge, England)	
The Effect of Metallic Additives on Ionization and Soot Formation in Oxy-Acetylene Flames .....	339
M. KONO (Tokyo, Japan), F. B. CARLETON, A. R. JONES, and F. J. WEINBERG (London, England)	
The Effect of Nonsteady Electric Fields on Sooting Flames .....	357
RICHARD J. MARTIN and NANCY J. BROWN (Berkeley, CA)	
The Importance of Thermodynamics to the Modeling of Nitrogen Combustion Chemistry .....	365
M. G. MUNGAL and J. M. O'NEIL (Stanford, CA)	
Visual Observations of a Turbulent Diffusion Flame .....	377
STEPHEN J. HARRIS (Warren, MI) and IAN M. KENNEDY (Davis, CA)	
Soot Particle Aerosol Dynamics at High Pressure .....	390
R. O. WEBER (Campbell, Australia)	
Analytical Models for Fire Spread Due to Radiation .....	398
Author Index .....	409
Subject Index .....	416
